EDITORS APPEAL-Shaw's letter not true, from beginning to end. Ask you readers to suspend their verdict till my lette reaches you, Wednesday, It is but justice to me. THOMAS E YOUNGER. ST. LOUIS, Mo., November 6, 1875. The True Theology.

EDITORS APPEAL—In your issue of October 12th, I read an article, headed, "Theology in Germany." It is a complaint that the student of theology have diminished very much at the different universities in that country; it also deplores the want of and numerates and names the master minds in that branch of learning. To my mind, I see no good, no advantage ever achieved, even by the greatest theologian. I hold that the simplest mechanical invention, provided it is a useful one, does more good than all theology together. There is a new kind of theology better fit ed to our country, which ought to be, and will be taught. What, so you and I nave passed away! What, so this and sundry generations shall pass away before that theology is universally taught! Surely the time will, must come, when the spirit of man will hold step with the mighty and rapid strides of science and art! When mankind will read the great volume not written by man, but spread by the hand of the Creator of all before us! For that, to a senvible, liberal, enlightened man, is the only book of theology is The True Theology.

man, but spread by the table as entible, liberal, all before us! For that to a sentible, liberal, enlightened man, is the only book of theology readable! As far as that old theology is concerned. EDITORS APPEAL—The time, corounstances and occasion are at hand that demand the selection of a candidate for mayor, one of long official observation and experience; one of deep foresight, practical ability and unquestioned integrity; one whose past official record stands before the public, as being against all the popular rings and swindles, preying upon the city of Memphis. And, indeed, one who belongs to the Memphis ring alone. We, and all able, and anxious observers of the past five years, know such a man, who is one of our old-time, and best tested citizens; one who has served in our most important official councils, and one who is well known by our best and most interested peoble, to be fully qualified in every respect to meet all the demands in the premises. It is scarcely necessary, after what has been said, to say that Dr. William Hewitt is the manversely necessary, after what has been said, to say that Dr. William Hewitt is the manver one of our most careful, able, efficient and honest city officials, having by his unerring perception and prompt decharge of duty, saved the city hundreds of thousands of doilars. Let his friends, in view of all these facts, resolve to remember and reward his support merit and in so doing, secure for the dollars. Let his friends, in view of all these facts, resolve to remember and reward his suffacts, resolve to remember and reward his superior merit, and in so doing, secure for the city and themselves a mayor that will stand city and themselves a mayor that will stand by Memphis and her interests, in the future by Memphis and her interests in th by Memphis and her into well. as in the past, and all will be well. It will take money to erect the clock, and nothing but money will do, and its success or failure must and will be decided by our people in their contributions. I am calling on and addressing communications to all the railroads centering here, to the different steamboat lines, to the street railroad company, to the banks, insurance companies, gas company, to the different oil works, Memphis cotton exchange and chamber of commerce, soliciting them to aid me with liberal contributions. I shall expect to hear from them within ten days, and if their response is favorable, I shall commence canvassing for indiable, I shall commence canvassing for Individual subscriptions. Edward Shaw. EDITORS APPEAL-The comments of the Appeal and Ledger upon Edward Shaw in noticing the recent difficulty with Younger strike me as unreasonably harsh and severe, decide which usually characterizes these two independent journals in dealing with matters of that kind. I think it more than probable that the conduct attributed to him was greatly exaggerated, and that a few heated, angry words, too often indulged in discussing politics, may have been magnified into threats of violence and intimidation. Edward shaw is a man of good sense and intelligence, and to thickly to be guilty of the aggravated of fense imputed to him. It is very well known that he was urged to go to Mississippi in the interest of the Ames party, and that he refrained.
